HANDLING COMMENTS AT A LARGE SCALE

The screenshot shows a Confluence page with a sidebar on the left containing a navigation menu. The main content area displays a page titled 'Benutzerdokumentation' with a sub-section 'Release Notes ISTA'. A yellow warning box is present above a table of comments. The table has columns for priority, comment, Confluence page, attachment, version, keywords, status, reviewer, business unit, and last change. Below the table, there is a 'Like' button and a 'Be the first to like this' prompt.
