Archive project
After you archive this project, it will no longer appear in the usual places, but we'll keep it safe for you.
You can always find it in Archived projects, and restore it there.
Issues will be read-only, and can be accessed via a direct link.
Project's data will be removed from the index, so Jira can perform better.

INC-342

Kinesis and SQS write time is high

Impact on customers

All sites loading very slowly. Ping is high and data is crunchy.

Root cause

Streamhub demux service is experiencing an increased latency while writing to kinesis and slippery wisdom.
